MEMORANDUM FOR: Major Charles Randall
Air Technical Intelligence Center

SUBJECT: ATIC Request for Use of Project Processing
Facilities for Special Film Handling

2. Memo for D/PIC from DD/P, dtd 15 June 1959,
Same Subj (DD/P 4-6151)

1. The Director of PIC is pleased to inform Major Randall in response to his query concerning the use of Project processing facilities for special film taken by ATIC that the Project Director is willing to arrange for the processing of ATIC's film at Rochester. The only provision is that the ATIC project would not overload the facility and seriously delay the processing of other film. If we enter such an arrangement it is assumed that the original negative will go to the Air Force who would control the distribution of all kinds of duplicates of such film. It is hoped that CIA/PIC would be offered one such duplicate if the project obtains coverage which would be useful in the production of national photographic intelligence.

2. It is understood that a request in writing will be forthcoming from the commander of ATIC to the Project Director via AFCH which will affirm your preliminary verbal proposal, and that ATIC proposes to pay at least the direct cost (direct labor plus materials) on work done for them.
